

VELUX®

The No Leak Skylight™

Electric "Fresh Air" Skylights

Deck and Curb-Mounted

Bringing light to life™

Why Skylights?

Daylight

Every hour of every day, sunlight has the power to redesign the look and feel of our home, as well as contribute to our family's health. It balances our Circadian rhythm, as well as improves our eyesight and overall well-being. With skylights, you can bring in more daylight to help balance the light in any room, reduce glare, and transform your home into a more open, safer space. We often ask, "Why skylights?" But with endless reasons to install them, the question becomes more, "Why not skylights?"

Fresh Air

There's a reason we instinctively open the windows to let in fresh air after cooking and cleaning, or when we return home from a long trip. Letting fresh air into our home gives us a sense of belonging, a feeling of home. The VELUX Electric "Fresh Air" Skylight is designed to release stale, trapped air and remove your home's boundaries between inside and out, making it an active, healthy place to live.

A Must-Have for Any Home

Your home comes alive when it's warm, inviting, and full of light. But before you start browsing paint colors, ordering fabric swatches, or thumbing through catalogs for inspiration, look up to your fifth wall. The most unnoticed, yet impactful wall in every room can be your next great design space. Change more than just your wall color, transform the look and feel of your entire home with skylights.

Ambient Light

Light reflects off walls and floors to give your space a soft, glowing look and feel.

Ventilation

Opening your skylight helps purify your entire home with fresh air.

Rain Detection

At the first sign of rain, your skylight automatically closes for you.

Privacy

Your skylight looks up, protecting your home's privacy down below.

Lower Electric Bill

Turn off more lights in your home by soaking up free light from above.

Unique Design

Add the finishing touch by pairing your skylight with designer blinds.

Meet your skylight.

The Dramatically Transformative Skylight

Watch your space fill with natural daylight and fresh, clean air with Electric "Fresh Air" Skylights.

1

Clean, Quiet & Safe Glass

Neat® glass is exceptionally smooth, reducing water spotting, and is the quietest, safest glass to put above your head.

2

Rain Sensor

With the integrated rain sensor, this skylight closes automatically at the first detection of rain.

3

The No Leak Promise

The No Leak Skylight carries a 10-year installation warranty, plus 20 years on glass and 5 years on blinds and controls.

4

Standard Hard Wire

To power your skylight no matter how out of reach, a single 20' hard wire connects to a standard junction box.

5

Fresh Air

With a touch of a button, the skylight opens to ventilate your entire home with fresher, cleaner air.

A window into a smarter, healthier home.

VELUX ACTIVE

VELUX ACTIVE with NETATMO is your home's climate control and monitoring system, and it works whether or not you're home! Trusted to create a healthier home environment, VELUX ACTIVE's sensor-based controls connect to your smartphone and automatically adjust your skylights and blinds for ideal temperature and air quality.

Download your VELUX ACTIVE app now for a smarter, healthier home.

Download on the **App Store** | **GET IT ON Google Play** | Works with **Apple HomeKit**

Daily Ventilation

Choose how often your skylight opens during the day to circulate fresh air throughout your home.

Sensor Based Ventilation

Readings from your indoor climate sensors (CO₂, humidity, temperature) combined with outdoor conditions will open your skylight if natural ventilation can improve room conditions.

Smart Heat Protection

VELUX blinds operate proactively based on local weather forecast information.

Stay in Control

Operate your VELUX skylights and blinds from your smartphone.

Say the Word

Use voice control assistance to operate your VELUX skylights and blinds.

Easy Departure

Put your VELUX ACTIVE products in safe mode with just one tap.

VELUX ACTIVE

Smart sensor-based operation of your VELUX skylights and blinds.

Safest Glass to Live Under

Clean, Quiet & Safe

When selecting a VELUX Electric "Fresh Air" Skylight, rest assured it comes with our most-recommended, top-rated glass: Clean, Quiet & Safe. Named for its three biggest benefits, this glass comes with state-of-the-art, energy-conserving LowE glass, designed to keep your home warmer in the winter and cooler in the summer.

Clean: Skylights stay virtually spotless with Neat® glass coating designed to decompose any dirt or debris.

Quiet: Reduces unwanted outside noise by up to 25% compared to a standard double pane glass and up to 50% compared to a plastic skylight.

Safe: Unlike tempered, this glass does not shatter into pieces when cracked, a building code requirement for all out-of-reach applications.

ENERGY STAR certified products are the most straightforward way to help meet energy codes.

Most VELUX residential products are ENERGY STAR certified in all 50 states. By specifying or using ENERGY STAR certified products, architects and builders can use windows and skylights to bring much-needed daylight and fresh air inside, creating more attractive buildings and livable spaces while still meeting the local energy codes.

3 Layers of Protection

The No Leak Skylight™

• No Leak Promise • No Worries

- 1 Pre-attached Seal**
Pre-attached deck seal (deck-mounted) or gasket (curb-mounted) provides a tight seal for leak-proof installation.
- 2 Adhesive Underlayment**
Adhesive underlayment for secondary water protection against the harshest weather conditions.
- 3 Engineered Flashing**
Engineered flashing for easy installation and primary water protection.

Bringing light to life™

NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX offers the choice of laminated or tempered glass skylights. Impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB) or resin. In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS IS REQUIRED IN YOUR APPLICATION.

VELUX®

The VELUX Group creates better living environments with daylight and fresh air through the roof. The VELUX product program contains a wide range of roof windows and skylights, along with solutions for flat roofs. The Group also supplies many types of decoration and sun screening, roller shutters, installation products, products for remote control for installation in roofs.
